GOLD MEDAL JAMAICA EXHIBITION.

PURE AND PERFECT ARTICLE FOR
Teeth, Gums, and Breath.

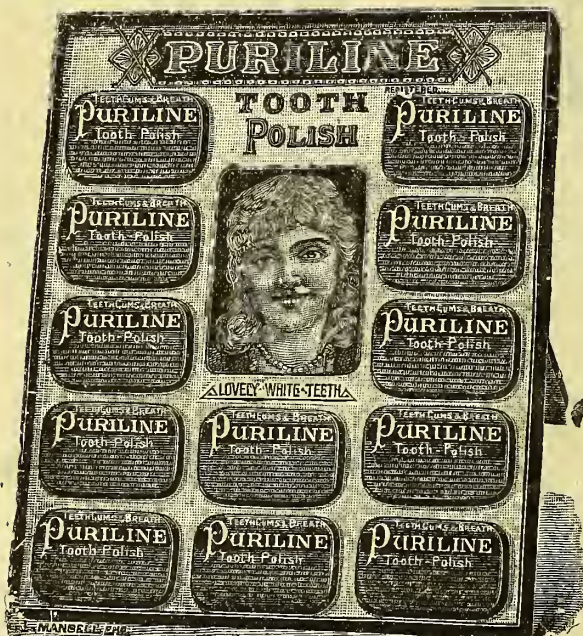

Will purify and beautify the Teeth with a pearly whiteness, polish the enamel; prevent tartar; destroy all living germs and keep the mouth in a delicious condition of comfort, health, purity, and fragrance. Non-gritty, and absolutely pure and harmless to use. Price One Shilling, in handsome Enamel Box.

The POPULAR DENTIFRICE, which Sells at Sight.

Handsomely put up in Show-cases, as here shown. Printed in Twelve Colours. An ornament to any window.

Price 7/6 per dozen, of all Wholesale Houses.

The COURT CIRCULAR says:—"Puriline" emanates from the laboratory of 'Bunter's Nervine' fame. Bunter's previous preparations for the teeth have received such high encomiums from medical men that it is not surprising that this latest production should have received the recognition and approval of those best qualified to pronounce on its merits."

H. M. STANLEY, D.O.L., LL.D., the great African explorer says:—"I use 'Puriline Tooth Polish and Wash'; am much pleased with both."

The Countess of ROSSLYN writes:—"Have been recommended to use your Dentifrice, called 'Puriline.' It is extremely nice; please send me six more."

VELUTINA POLISHING CLOTH.

MADE IN 6 DIFFERENT SIZES.

THE BEST MATERIAL FOR POLISHING PLATE,
METALS, FURNITURE, GLASS, or ANYTHING WITH A BRIGHT SURFACE.

There is None Better than the Best.

JANE: Do you use this wonderful VELUTINA POLISHING CLOTH?

MARY: No; we use nothing but dusters and wash-leather.

JANE: I thought so; that explains why things are so dull at your place, compared with ours!

MARY: Why! does the VELUTINA POLISHING CLOTH make all the difference?

JANE: It brightens up everything when used with a little "elbow grease," whether furniture, plate, metals, glass, or one's temper; and our young gentlemen say there is nothing so good as it for polishing their bicycles; besides, when it's soiled it can be washed, and when dry it's as good as new, and does not become hard and useless like wash-leather.

"THE CHEMIST AND DRUGGIST"

SUMMER ISSUE

JULY 27, 1895,

Will be a Double Literary Number, and will be received and read by picked Buyers of all kinds of Druggists' Goods throughout the world, especially by firms and business men in **SEVERAL THOUSAND CITIES AND TOWNS** in the United Kingdom, the European Continent, South America, Canada, the Australasian Colonies, India, China, Japan, the West Indies, and South Africa.

The Summer Number has secured a high reputation for business purposes, and no efforts will be spared to make the Summer Number of 1895 equal to its predecessors. Advertising firms should particularly note that

CIRCULARS AND PRICE LISTS

can be received for and stitched with this number of **THE CHEMIST AND DRUGGIST** as Supplements. No similar opportunity of **effectively and economically** distributing a Circular to the Trade will be offered this year. It is noteworthy that Circulars stitched up with **THE CHEMIST AND DRUGGIST** are sure of careful preservation. They are addressed to a specially selected list of Firms such as is possessed by the Proprietors of this Journal only, and the cost of distribution by this means is far less than that of postage alone, not to mention the saving of clerical labour when the work is done from an office.

ADVANTAGES

of distributing Circulars and Price Lists by this means.

1. They are stitched up with an interesting number, which is almost certain to be carefully examined and preserved.
2. The Advertiser gets the benefit of a register of names at home and abroad, which is not available from any other source.
3. Our charge for distributing is only about one-third of the cost of postage of a circular if sent out separately by firms themselves.

PRICES

for distributing 11,000 Circulars, each one stitched in.

TWO PAGES (one leaf), £8 5s. net.

FOUR PAGES (two leaves), £11 net.

EIGHT PAGES (four leaves), £16 10s. net.

Circulars for insertion in "The Chemist and Druggist" must be on pages similar in size to those of that Journal, but may be of any tint; they must be folded singly (or otherwise folding will be charged for). Each page must bear the head-line: "Supplement to 'The Chemist and Druggist,' July 27, 1895," and the Circulars must be delivered to us not later than Saturday, July 20.

Further particulars as to position, &c., may be obtained from the Publisher,

THE CHEMIST AND DRUGGIST, 42 CANNON STREET, LONDON, E.C.

SEABURY'S SULPHUR CANDLES

(PATENTED)

are the safest, surest, and most convenient form in which Sulphur
can be burned indoors, for

DISINFECTION BY FUMIGATION.

Large Size, retailing at 1s.

Seabury's Sulphur Candles

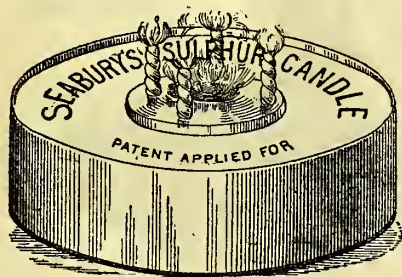

Will destroy disease germs after infectious diseases, in vacated apartments or hospital wards, also in bedding, clothing, and drapery.

Will destroy noxious vapours from sewers, cesspools, &c.

Will destroy insect pests and other vermin.

These candles afford a safe means of burning sulphur indoors, on board ship, &c., and are used and approved by Boards of Health and Sanitary Authorities in various parts of Great Britain and America, and were used to fumigate the Royal Courts of Justice, the Committee Rooms of the House of Commons, and the War Office after the Influenza epidemic.

One large candle will burn for two hours, and thoroughly disinfect a room of ordinary size.

Small Size, retailing at 6d.

This popular size of the SEABURY SULPHUR CANDLE is in a permeable container which absorbs the water in which it stands, and thus, bringing the water into actual contact with the burning sulphur, the candle really becomes a
NASCENT SULPHUROUS ACID CANDLE.

SEABURY'S SULPHUR CANDLES may be ordered through any Wholesale House, but it is important to specify Seabury's, as in many cases mistakes have been reported.

 Medical men are everywhere ordering SEABURY'S SULPHUR CANDLES (which burn readily and safely) as the most reliable means of disinfection extant after

A Copy of this Supplement is inserted in every number issued of "The Chemist and Druggist."

THE ADVANTAGES

Of advertising in this Supplement should be kept in mind by Transfer Agents and Valuers; by Wholesale Houses and Contract Agencies; by Pharmacists desirous of selling Businesses, or of buying them; by those who want Assistants, or who are seeking Situations. For all such it is the medium which gives the smartest results, and its unique method of circulation has secured for it a surprising popularity. Space for displayed advertisements can be obtained on application to the Publisher, 42 Cannon Street, London, E.C.

CHEMISTS' TRANSFERS.

MESSRS. ORRIDGE & CO., 32 LUDGATE HILL, E.C.

CHEMISTS' TRANSFER AGENTS,

May be consulted at their Offices on matters of SALE, PURCHASE, and VALUATION.

The business conducted by Messrs. ORRIDGE & Co. has been known as a Transfer Agency since the year 1846, and is well known to all the leading firms in the Trade. VENDORS have the advantage of obtaining an opinion on value derived from extensive experience, and are in most cases enabled to avoid an infinity of trouble by making a selection from a list of applicants for purchase, with the view of submitting confidential particulars to those alone who are most likely to possess business qualifications and adequate means for investment. PURCHASERS who desire early information regarding eligible opportunities for entering business will greatly facilitate their object by describing clearly the class of connection they wish to obtain.
